

VITTORIA BASSI

Code · Data · Communication — Web Development, Social Media Mining & AI

Milan, Italy • +39 348 642 4483 • vittoria.bassi02@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFILE

Graduating student in Computer Science for Digital Communication at the University of Milan (Social and Mobile Computing track), with a hybrid profile spanning web development (JavaScript, Kotlin, Go, React), data/social media mining, and digital communication (content creation and community management). I have explored responsible AI use (AI Fluency for Students, Anthropic), applying network analysis techniques in a social media mining project, and I completed a thesis internship (July 2026) on the design of a digital platform focused on user experience.

EDUCATION

Computer Science for Digital Communication – Social and Mobile Computing track | University of Milan — 2021 – January 2027 (expected)

Databases and Web

- Design of relational databases and querying with the SQL language.
- Development of web applications with server-side scripting for dynamic data retrieval from databases.

Web Applications and Cloud

- Principles of web application design and development, and cloud computing service models.
- Hands-on labs building web applications leveraging cloud technologies.

Mobile Computing

- “Fotogram” project: Android prototype of an image-sharing social network, featuring a feed, post creation, and map-based location tagging.
- User session management, local post caching, and server synchronization via REST APIs.

Other areas of study

- Computer networks, human-computer interaction, social media mining, digital marketing, and digital products & AI law.

Diploma in Tourism Accounting | Istituto Tecnico Statale De Simoni / Quadrio — A.Y. 2020/2021

EXPERIENCE

Thesis Internship – Digital Product Development & UX | Koinè Cooperativa Sociale ONLUS — 2025 – July 2026

- Design and development of a digital platform for a nursery school, with a focus on user experience.
- Data collection and analysis in collaboration with education and psychology professionals.
- Requirements gathering and definition within a multidisciplinary team (technical, educational, psychological).

Digital Investor’s Personal Assistant | Discord Community — June 2021 – October 2022

- Day-to-day management of digital communications on Discord for an active investor community.
- Content moderation and direct support to community members.
- Research and analysis of digital projects (NFTs, OpenSea) to support community decisions.

Receptionist | “La Brace” — 2021 – 2022

- Client reception and assistance in a fast-paced, multitasking front-office role.

SKILLS

Technical

- Languages & frameworks: JavaScript, Kotlin, Go, React
- Front-end development fundamentals and UX/UI
- Data & social media mining: network analysis, basic machine learning
- AI: prompt engineering and responsible AI use (AI Fluency, Anthropic)
- SEO and persuasive web writing

Digital Communication

- Social content creation and management, community management
- Storytelling, brand voice and visual identity

Transferable skills

- Empathy and emotional intelligence
- Teamwork, curiosity and continuous learning
